State operated inpatient psychiatric services provides specialized treatment and related supports to adults with mental illness, many of whom also have other complex conditions. Inpatient services are delivered at seven 16-bed Community Behavioral Health Hospitals and the Anoka Metro Regional Treatment Center. All sites deliver quality treatment by maximizing the prevailing clinical and organizational practice models.

Community Behavioral Health Hospitals (CBHH)

- Located throughout the state, the CBHHs provide short-term, acute inpatient psychiatric services in a 16-bed facility. Natural support structures can be incorporated into treatment by serving patients as close as possible to their home communities. The hospitals provide an array of acute, short-term hospitalization services that include:
  - Assessment of mental, social, functional and physical health
  - An individual treatment plan, including medication management and 24-hour nursing care
  - Multidisciplinary teams, including psychiatry, medicine, nursing, psychology, social work and occupational therapy
  - Current approaches including such models as Illness Management and Recovery.
- Individualized discharge, care coordination and aftercare planning for transitioning back to an appropriate setting in the community

Specific services also include:
- Person-centered treatment to actively involve patients in identifying and addressing their personal recovery goals
- Acute inpatient adult mental health treatment in hospital setting
- Family and patient assessment
- Family and individual counseling sessions
- Medication treatment and management
- Integrated dual diagnosis treatment for mental health and chemical dependency treatment
- Illness management and recovery therapy model
- Group and individual therapy

Professional staff:
- Physicians
- Psychiatrists
- Psychiatric nurses, clinical nurse specialists, nurse practitioners, physician assistants
- Licensed independent clinical social workers
- Psychologists
- Dieticians
- Human services technicians
- Occupational therapists
- Social work assessment
- Occupational therapy and assessment
- Discharge and aftercare planning
- Coordination with outpatient supports
- Pharmacy and chaplaincy services.

Anoka-Metro Regional Treatment Center (AMRTC)

Located in Anoka, AMRTC serves people who are mentally ill in a large, campus-based setting. Many of these people have complex medical histories. Like the smaller CBHHs, AMRTC is a large inpatient psychiatric hospital. Services include units dedicated to the treatment of psychiatric patients with complex co-morbid medical conditions, treatment of individuals with mental illness who face a criminal trial and patients with high levels of behavioral issues.

Referrals:

- Referral sources include county social services, mental health providers, community hospitals, courts, self, family and friends.
- Services are covered by most major insurance payers, including Medicare and Medical Assistance.
- Referrals must meet admission criteria and are prescreened by Central Pre-Admissions professional staff.
