Monitoring Technology Approval Request Process

DHS has a new policy and approval process for the usage of monitoring technology for supervision. The previous 6789 form is now obsolete.

There are three new forms used in the process (when applicable). The CBSM — Monitoring technology usage page has detailed instructions about when to use what form.

NEW FORMS

If needed, the applicable forms are:

- Monitoring Technology Approval Request (DHS-6789A)
- Participant Consent for the use of Monitoring Technology (DHS-6789B)
- Affected Participant Consent for the use of Monitoring Technology (DHS-6789C)

QUESTIONS

If you have questions or need guidance on the policy/procedure, please contact the DSD Response Center.
